A collection of Smart apps to Enhance Safety & Security at Sea
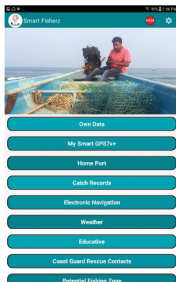

SmartfisherZ

A smart phone App & a multi functional social upliftment start-up initiative for fishers, It is aimed at minimizing investment in marine equipment, augments safety of life & security at sea amongst small scale fishers. A collection of powerful tools to help in navigation, location, education & information, will change the way knowledge is used to conserve/manage our fragile marine environment.

A great tool to promote traceability and marketability through technology, enabling a "net to net" experience (Fishing net to Internet).
