

## **Sales and Service Engineer – Ocean Science Division**

Over the years Elektronik Lab India Private Limited has built a significant reputation as a full line system integrator for communication, navigation & surveillance equipment. Elektroniklab's business includes commercial communication & navigation products, research and development of critical customized products for some of the most demanding and spectacular projects done under the sea, on the sea and above the sea. We are known for our innovative and powerful technology - and the people behind it.

Headquartered in Chennai we have our presence in New Delhi and all major ports. Our long-term working partnerships with some of the most renowned companies in the world such as Inmarsat, Cobham, Sonardyne, CNS, TERMA, Autogyro, Xylem, Mclane Research Labs, Aerodata AG, Scotty, Satcom Direct & many more; allow us to provide our customers with ready to order or tailor-made solutions along with the best in-country support.

With our in-house R&D and Software capabilities we designs and integrate complex communication, navigation and surveillance systems, and of course, also ensures that these are optimally maintained by combining technological expertise in the respective fields coupled with a nationwide and International after sales support network.

Elektroniklab currently seeks dynamic top performers for a fast-paced technical environment. You'll work on Ocean Science products such as Echosounders, Sonars, Radars, Moored Buoy Data, Sparker Boomer. If you are motivated and excited to solve real world problems, dedicated to 'getting it done', and confident enough to work alongside the best in the domain, then we'd like to talk to you.
